DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-57, drawn to a polymer made with a subunit comprising a nucleic acid and an ethylene-containing moiety.

Group II, claim(s) 58-65, drawn to a pharmaceutical formulation and method for introducing a nucleic acid into a cell of an animal *in vivo*, wherein the nucleic acid is part of a polymer made with a subunit comprising a nucleic acid and an ethylene-containing moiety.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group II is directed to a method of using the product of group I. Consequently the technical feature linking the two inventions is the polymer itself. However, the polymer is not a special technical feature as required under PCT Rule 13.2 because Boles et al., US 5,932,711 discloses polymers readable on the invention of Group I.

Art Unit: 1632

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
